

SPECIFICATION AMENDMENTS

[0017] Referring again to Figure 1, the top surface 13 of the base member 12 has third and fourth spaced apart openings 42, 44 near a front edge of the top surface 13. These openings 42, 44 receive pins or pegs (not shown) to anchor a bin 50. The sidewall of bin 50 is closed and the first and second upright members of handle 22 are inside the closed sidewall. The first and second ~~pegs 46, 48~~ pegs 46, 48 are removably inserted in the third and fourth openings 42, 44 of base member 12 inside the closed sidewall of bin 50.
